## EDUCATION

### Rangsit University

Bachelor of Information and Communication Technology - 3.67 GPA

## PROJECT

### MobileBookingApp | Flutter & Firebase

- Developed a mobile booking app with real-time booking functionality, membership system, and secure user authentication using Firebase Auth and Firestore.
- Designed and implemented a sleek, intuitive user interface with responsive UX for seamless navigation across devices.
- Integrated dynamic data handling and real-time updates to ensure smooth booking experiences for users.

### Library Support Chatbot | Python (NLTK)

- Developed a Python-based chatbot using Natural Language Processing (NLP) techniques to automate FAQs for the university library.
- Designed and implemented logic trees to handle structured responses and simulate human-like conversation flow.
- Trained the chatbot with sample user queries to improve response accuracy and usability for common student inquiries.

### Portfolio Website

- Built and deployed a responsive portfolio site using modern front-end technologies (HTML, CSS, JavaScript, React).
- Emphasized UI/UX principles to enhance readability, visual appeal, and navigation.
- Used version control with Git and hosted the project on GitHub.
